Thank you for purchasing your new Bracketron MVM Multi Vehicle Mount.

The Multi Vehicle Mount is an (end user-installer) modifiable professional mounting bracket for most all mobile electronics requiring a steady and secure installation in a motor vehicle. The MVM installs behind your vehicles dash panel using existing or non-visible holes and is designed to cleanly protrude out from your vehicle’s dash panel.

Before installing, you must take the time to read and understand this installation manual and read all the warnings accompanying this product.

Instructions Include: tools needed for install, directions for dash panel removal, directions for modifying the MVM if required.

You can download this manual and any updates from http://www.bracketron.com/downloads
IMPORTANT INFORMATION

Please read instructions completely before installing this Bracketron MVM Mount. All instructions are written from the driver's seat vantage point looking forward at the vehicle's dash. We advise caution whenever you are removing or handling plastic parts of a vehicle's dash. **WARNING:** Unnecessary force or pressure can cause pieces to crack or break.

**PARTS INCLUDED:** MVM-15-05 Mount, 3-#8x3/4” Self Tapping Screws PHS-203 Ultra Slim Swivel, and Hardware

**TOOLS NEEDED FOR DASH PANEL DISASSEMBLY**
- Dash Trim Tool (Part #SIT-104)
- # 2 Phillips Screwdriver
- Fiskars 8511 Craft Hand Drill (recommended)
- 5/64” Drill Bit
- 9/32” Open End Wrench (for swivel)
- Marking Pen

**TOOLS NEEDED FOR MVM MODIFICATION (if required)**
- 4 inch Mounted Bench Vise
- 12 oz. Ball Pein Hammer
- Standard Tin Snips
- Small File

**Note:** The holes on the MVM may be different than what is shown in the pictures.

**DASH DISASSEMBLY INSTRUCTION**

1. Begin by removing the control knobs from the climate control system. There are two dial knobs for the fan and temperature controls, and two flat knobs on the slider controls. Pull towards you to release these control knobs. Set these knobs aside. With your hands or Dash Trim Tool (Part #SIT-104) remove the A/C button by grasping the button and pulling outwards. Set A/C button aside in a safe place. Place the Hook Tool (Part #SIT-103) into the slots on the climate control faceplate and pull to release two clips. Set this faceplate aside carefully.

2. Locate and remove two phillips screws from around the climate control system. Remove ashtray by pressing the silver lever and pulling out towards you. Set ashtray aside. Locate and remove one phillips screw from behind the ashtray cavity. Set this screw aside in a safe place. Use the Dash Trim Tool to release seven (7) clips (two near the top, two in the middle, and three near the bottom). Do not disconnect any wiring. Locate a small panel with cigarette lighter and power plug integrated into it. Use the Hook Tool to push two pins in on the sides. Pull to release two clips from each side of the panel. Do not remove this bezel. Let it hang to the side.

3. Use the holes in the Multi Vehicle Mount as guides to mark two pilot holes. Set the Multi Vehicle Mount aside. Carefully drill two pilot holes using the 5/64” drill bit and drill. Place mount over pilot holes and insert two of the provided screws and tighten down the Multi Vehicle Mount.

4. Carefully reinstall the dash in reverse order securing all screws and clips to the bezel. Install the included Ultra Slim Swivel PHS-203 to your Multi Vehicle Mount or any other AMPs compatible device.

Your installation is complete.
MVM MODIFICATION INSTRUCTIONS

PLEASE NOTE

The Bracketron MVM-15-05 mount is a modifiable mounting bracket. The illustrations on the left show how this mount should look during and after the modification steps in order to fit the listed vehicles on the front page of this manual. Many vehicle applications may not require any modifications to the mount. If this is the case it will be noted below and there will be no steps to follow on this page.

Note: There are no modifications required to the MVM mount for this application.

Note: Please see page 3 in this manual for PHS-203 Ultra Slim Swivel Instructions.

Note: The hole pattern on the face of the MVM maybe different then what is shown in the pictures.
PHS-203 ULTRA SLIM SWIVEL INSTRUCTIONS

PLEASE READ INSTRUCTIONS COMPLETELY BEFORE INSTALLING THIS BRACKETRON MOBILE SOLUTION.

This Professional Swivel Mount Solution is designed to be mounted to your MVM or any other 4 hole AMPs compatible mounting device. The Ultra Slim Swivel is compact with a low profile and is designed to provide adjustability to devices such as Satellite Radio Receivers, GPS monitors or Mobile Phones. The Ultra Slim Swivel angles your device for better viewing, tilting approx 15° in all directions and swivels 360° degrees for maximum adjustability. All mounting hardware is included in the kit along with our AMPs adapter plate to attach devices that support T-Notch mounting.

PARTS INCLUDED

1 - Ultra Slim Swivel  
1 - AMPs Adapter Plate  
4 - M4 x 10 Hex Head Screws  
4 - M4 x 10 Pan Head Screws  
4 - M4 x 12 Pan Head Screws  
4 - M4 Hex Head Nuts  
4 - M4 Nylon Locking Nuts  
4 - M4 Star Washers

**Note:** The swivel can be installed before or after the mount is installed in the vehicle. Attach the Ultra Slim Swivel to any MVM or CBM Mount or other AMPs mounting device by inserting the M4x10 Pan Head screws through the holes on the back half of the swivel. Align the screws up with the holes on the mount. Attach the M4 Nylon Locking Nuts only finger tight. Rotate the front half of the swivel to gain access to the M4x10 Pan Head screws. (See Picture 1 & 2) Tighten all 4 screws with a #2 Phillips screwdriver and 9/32” open end wrench.

1. **Rotate**

   Tighten the center screw to adjust the desired tension of the swivel. (See Picture 3) **Note:** If Swivel becomes loose over time, you can grasp the swivel and pull toward you lightly while rotating it clockwise. This will tighten the swivel allowing you to create the desired tension needed.

2. **For T-Notch Devices**

   Attach the AMPs T-Notch Adapter to the front half of the swivel using the M4x12 Pan Head screws. Attach the M4 Star Washers and M4 Hex Nuts to the screws and tighten the plate down with the #2 screwdriver and 9/32” open end wrench. Slide your device onto the T-notch Adapter plate to secure it to the swivel. (See Pictures 4)

3. **For AMPs Devices with Inserts**

   Attach your AMPs device using the M4x10 Hex Head screws and M4 Star Washers. Align the holes on the device with the holes on the front half of the swivel. Slide the Star Washers onto the Hex Head screws. Insert the screws through the swivel and into your device only finger tight. Tighten down the device with the 9/32” open end wrench. Your device is now secure to the swivel. (See Pictures 5)
